JPMorgan SmartRetirement Blend 2020 R6	Investment Objective & Strategy
	The investment seeks high total return with a shift to current income and some capital appreciation over time as the fund approaches and passes the target retirement date. The fund is a "fund of funds" that invests in other J.P. Morgan Funds and exchange traded funds (ETFs) that are managed by unaffiliated investment advisers (unaffiliated ETFs) and are generally intended for investors expecting to retire around the year 2020 (the target retirement year). It is designed to provide exposure to a variety of asset classes through investments in underlying funds, and over time the fund's asset allocation strategy will change.
Fund Investment Expense as of 03/31/2018	Risk and Return Profile
Gross: 0.67% Net: 0.29%	This investment option may be most appropriate for someone willing to take some risk to achieve higher potential returns. The investor may be approaching retirement, with a short investment horizon, or may prefer to take less risk than other investors. Investors choosing this option want to invest in a mixture of diverse investments suiting their needs but may not have the time, desire, or knowledge to select their own portfolios. The date in a target date fund's name represents an approximate date when an investor is expected to retire (which is assumed to be at age 65) and/or begins withdrawing money. The principal value of the funds is not guaranteed at any time, including the target date. Asset allocation and balanced investment options and models are subject to the risks of the underlying funds, which can be a mix of stocks/ stock funds and bonds/bond funds. For more information, please refer to the fund prospectus and/or disclosure document.
