

Vision plans designed for more choice, control and better coverage

Connect to vision care designed to meet evolving health needs, budgets, and lifestyles.

A broad network offering more flexibility and choice.

UnitedHealthcare Vision offers access to one of the largest networks, to help members find the care experience they want, where they want it.

- Over 120,000 access points nationally and growing.¹
- Benefits cover local, independent providers to national retailers.
- Exclusive partnerships with Warby Parker and GlassesUSA.com.

Delivering additional value through quality plan benefits.

Expecting mothers and young children receive specialized care at moments when it's needed most, without costing any more.

- Vision plans cover two eye exams each year for pregnant women and children under 13.
- As prescription needs change, we provide coverage to match.

48 of the top 50 vision retailers, with a wide variety of price points.²

Vision + Medical: Combine plans to help see more possibilities and better outcomes

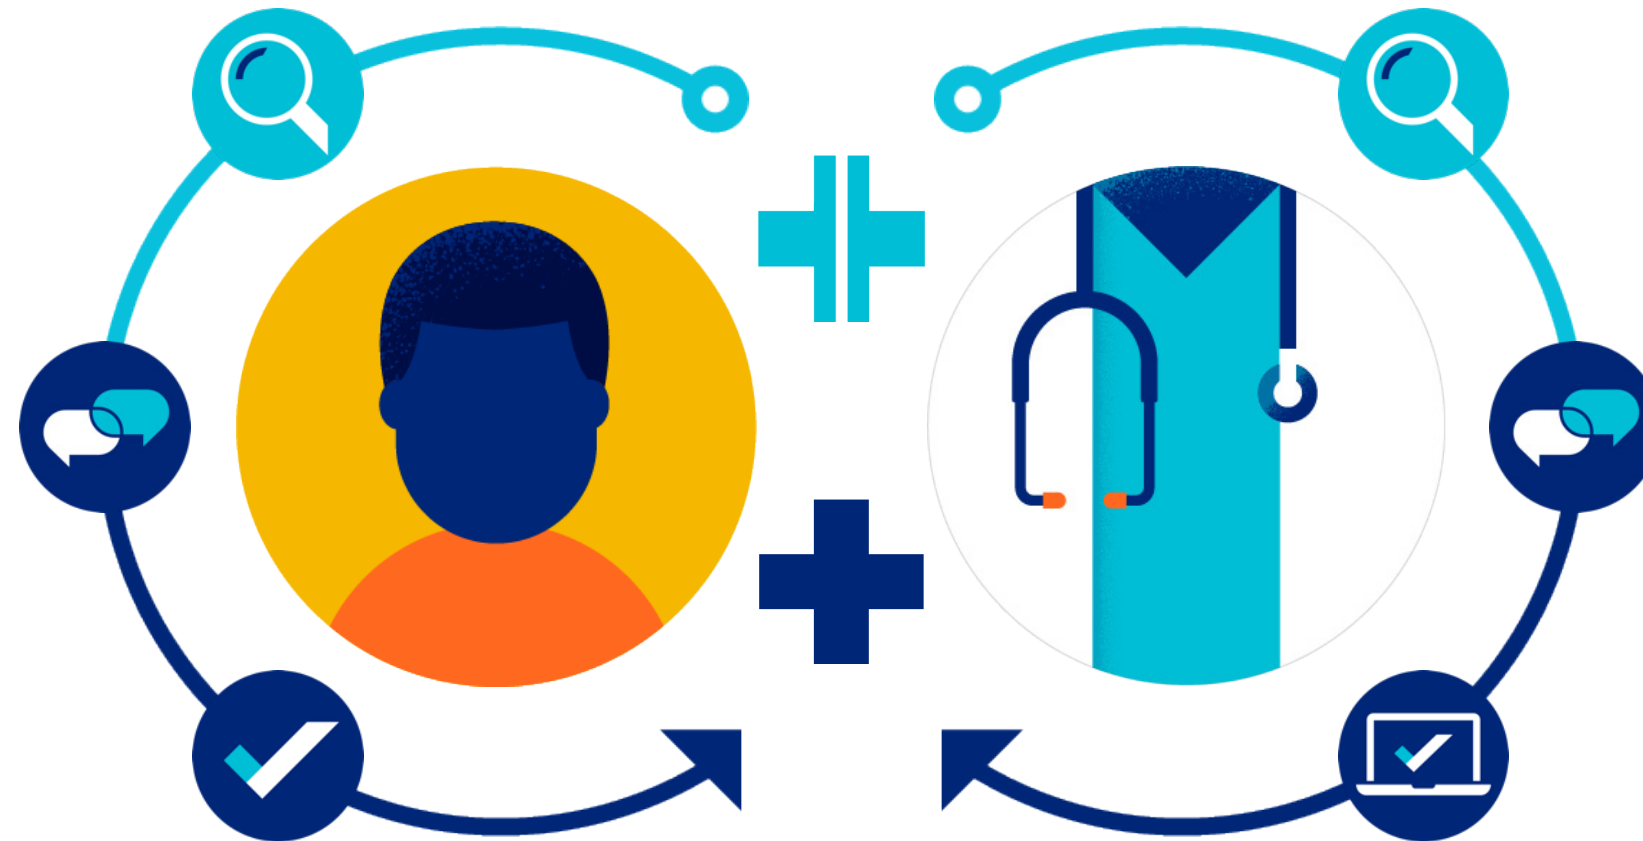

When plans are integrated, we combine vision and medical data, connecting members to holistic care and guidance, which may help save costs.

Encouraging healthier choices.

UnitedHealthcare integrates vision and medical data to identify opportunities that may help improve member health.

- Eye exams can help monitor and identify 23 chronic health conditions.³
- We deliver focused interventions, including outreach to members with chronic conditions who have gaps in vision care.

Helping support more effective care.

We empower physicians with timely information and support with our members' eye health.

- Providers receive status on a member's diabetic retinopathy screening and other chronic conditions.
- Sharing data across vision and medical can give health professionals a more complete, personalized understanding of patient needs.

23

chronic conditions can be identified through comprehensive eye exams³

15%

better identification of chronic conditions, including diabetes⁴

57%

of at-risk members returned to medical care after seeing their vision provider⁵
